

***The One* ~ John Marrs**
Page Turners Meeting – February 12, 2019 @ 6:00

Discussion Questions:

1. Before reading this book, would you have considered taking the DNA test? How do you feel about the test now that you have read the book?
2. Which character's experience did you find most compelling? believable? contrived?
3. Did the violent and graphic storyline of Christopher distract from the overall story or did you find it intriguing?
4. Were you surprised to find out about Ellie's vocation and connection to the DNA test?
5. Did the "cliff hangers" at the end of each chapter encourage you to keep reading or did you find that distracting?
6. Would you have liked to see the five story lines converge at some point?
7. If you could change the outcome for one of the characters, which one would it be? How would you change the storyline?
8. Do you agree with Ellie's argument at the end, **"Sometimes, the grass isn't greener on the other side, and we should stay in the field where we belong. And sometimes we just need to take a gamble and hope for the best."** (412).
